### ### Zukünftiger Plan ###

- Main Stats:

- Strength ():

- Constitution (): Adds HP and healing surges, which are always good to have.

- Wisdom (): Makes you stickier, and boosts that all-important Will defense (the bane of Fighters since, well, forever).

- Dexterity (): Gives you Reflex defense and AC in light armor. The thing is, Fighters can use shields (which boost AC and Reflex) and/or wear heavy armor, reducing their need for it pretty drastically. Two-handed Fighters might want a decent score here, since they don't use shields and therefore their Reflex defense is lower.

- Charisma (): Useless for fighting, and boosts the same defense as Wisdom, BUT it does see some use in your skills (Intimidate being the shining example).

- Intelligence (): Your designated dump stat. Has a redundant function with Dex (except initiative), grants you a bonus to skills you will (hopefully) never have to use.

- Feats

- Great Weapon Master (S-Tier)

- Problem Master (S-Tier)

### Tinderbox

*Adventuring Gear*

## Thieves' Tools

### *Tools*

Perhaps the most common tools used by adventurers, thieves' tools are designed for picking locks and foiling traps. Proficiency with the tools also grants you a general knowledge of traps and locks.

**Components.** Thieves' tools include a small file, a set of lock picks, a small mirror mounted on a metal handle, a set of narrow-bladed scissors, and a pair of pliers.

**History.** Your knowledge of traps grants you insight when answering questions about locations that are renowned for their traps.

**Investigation and Perception.** You gain additional insight when looking for traps, because you have learned a variety of common signs that betray their presence.

**Set a Trap.** Just as you can disable traps, you can also set them. As part of a short rest, you can create a trap using items you have on hand. The total of your check becomes the DC for someone else's attempt to discover or disable the trap. The trap deals damage appropriate to the materials used in crafting it (such as poison or a weapon) or damage equal to half the total of your check, whichever the DM deems appropriate.

### Oil (flask)

*Adventuring Gear*

Oil usually comes in a clay flask that holds 1 pint. As an action, you can splash the oil in this flask onto a creature within 5 feet of you or throw it up to 20 feet, shattering it on impact. Make a ranged attack against a target creature or object, treating the oil as an improvised weapon. On a hit, the target is covered in oil. If the target takes any fire damage before the oil dries (after 1 minute), the target takes an additional 5 fire damage from the burning oil. You can also pour a flask of oil on the ground to cover a 5-foot-square area, provided that the surface is level. If lit, the oil burns for 2 rounds and deals 5 fire damage to any creature that enters the area or ends its turn in the area. A creature can take this damage only once per turn.
